

RELEASE NOTE

Date: 17-Mar-25

Subject: Software changes, updates, bug fixes, etc.

Software: Fortanix Data Security Manager

Version: 4.36.2544.2875

OVERVIEW

This document provides an overview of new improvements in the Fortanix Data Security Manager (DSM) 4.36.2544.2875 release.

This release is **superseded** by the [April 17, 2025](#), release.

WARNING:

- You are **REQUIRED** to upgrade Fortanix DSM to version 4.31 or 4.34 before upgrading to version 4.36.2544.2875. If you want to upgrade Fortanix DSM to version 4.36.2544.2875 from a version earlier than 4.31, please contact the Fortanix Support team at your earliest to validate the upgrade path.
- Downgrade from 4.36.2544.2875 to any prior version is not supported due to the DCAP migration.

NOTE:

- This release is specifically for customers who have an attestation-level proxy configured and do not want to switch to the global proxy.
- The Fortanix DSM cluster upgrade must be done with Fortanix Support on call. Please reach out to Fortanix Support if you are planning an upgrade.
- The customer's BIOS version must be checked by Fortanix Support before the Fortanix DSM software upgrade. If required, the BIOS version should be upgraded to the latest version and verified by Fortanix Support for a smooth upgrade.
- If your Fortanix DSM version is 4.31 or later, then the HSM Gateway version must also be 4.31 or later. Similarly, if the HSM Gateway version is 4.31 or later, then your Fortanix DSM version must be 4.31 or later.

IMPROVEMENTS

RELEASE NOTE

Date: 17-Mar-25

Subject: Software changes, updates, bug fixes, etc.

Software: Fortanix Data Security Manager

Version: 4.36.2544.2875

- Added proxy support for Data Center Attestation Primitives (DCAP) attestation and ensure that the DCAP and Intel Attestation Service (IAS) proxy settings only affect the attestation network flow (**JIRA: DEVOPS-5569**).

For more information, refer to [Fortanix DSM Installation Guide](#).

For a complete list of new features, enhancements to existing features, other improvements, bug fixes, and known issues refer to the full description of the [DSM 4.36 release notes](#).

INSTALLATION

NOTE: This release is for Fortanix DSM SGX-only deployments. For non-SGX software deployments, use the **4.36 - February 14, 2025** installation package.

To install the DSM Runtime Encryption® SGX (on-prem/Azure) package, [Download Here](#).

BEST PRACTICES

Because our quality assurance process includes continuous security testing, Fortanix recommends keeping all Fortanix products updated with the latest releases as soon as possible. As an overall strategy to reduce risk exposure, customers are encouraged to follow the best practices, which include:

- Always keep the product version up to date.
- Only issue accounts to trusted administrators.
- Utilize strong passwords.
- Monitor logs.
- Enable daily backups for the cluster.
