ıllı Fortanix®

RELEASE NOTES

Date: 16-Oct-25

Subject: Software changes, updates, bug fixes, and so on.

Software: Fortanix Armor and IAM

Version: 25.10

OVERVIEW

This document provides an overview of new features in the Fortanix Armor and Identity and Access Management (IAM) 25.10 release.

NEW FEATURES

- Fortanix Armor IAM now supports **Client apps**, enabling programmatic and secure access to the Fortanix Key Insight solution through REST APIs (**JIRA: PLAT-3724**).
  - o Account administrators can now create, enable or disable, and manage client apps for appropriate access control.
  - o The client apps authenticate using the OAuth 2.0 Client Credentials flow with **API Key** as the authentication method to obtain bearer **access tokens** for secure REST API access.
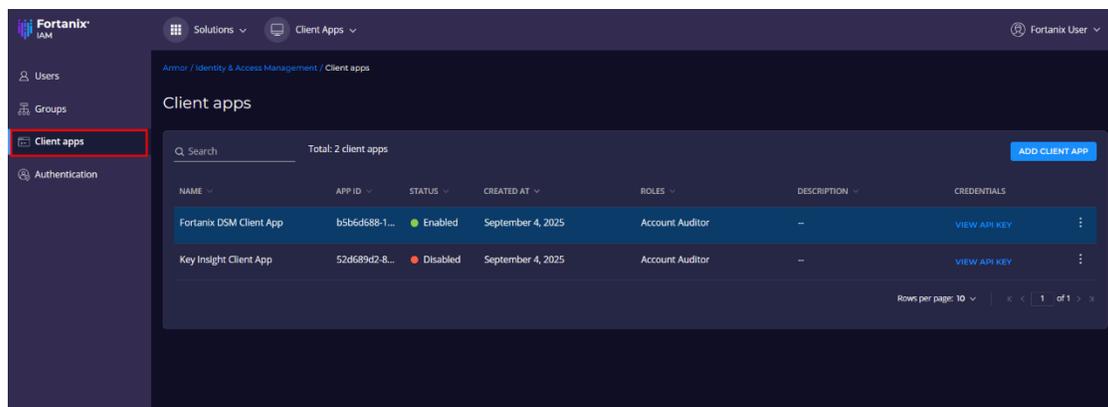

For more information, refer to the following guides:

- o *[Fortanix Armor Identity and Access Management (IAM)](#)*
- o *[Programmatic Access to Fortanix Armor IAM](#)*

BEST PRACTICES

Because our quality assurance process includes continuous security testing, Fortanix recommends keeping all Fortanix products updated with the latest

releases as soon as possible. As an overall strategy to reduce risk exposure, customers are encouraged to follow best practices, which include:

- Always keep the product version up to date.
- Only issue accounts to trusted administrators.
- Utilize strong passwords.
- Monitor logs.
